

CURRENT COST MONITOR & BETTER PLAN

Lochalsh and Skye Housing Association has become aware of an energy saving incentive offered by **SCOTTISH HYDRO ELECTRIC** called "**BETTER PLAN**".

Their offer is to supply, **free of charge**, a current cost monitor (normally priced at £45.00). This is a tool which is easily attached to your meter and it is simple and easy to operate. You may use it to indicate how much energy your home appliances are consuming and would allow you to decide how to reduce the consumption of these appliances, therefore enabling you to cut your energy costs, if you felt this was appropriate to your lifestyle.

As part of the offer, if you are able to reduce your electrical consumption by 20% over the course of a year, Scottish Hydro Electric may credit your account with **up to £25.00**. Alternatively, if you reduce your consumption by 10% Scottish Hydro Electric may credit your account with **£15.00**. ***You would not only reduce your energy bills but would also receive cash back for doing so!***

This offer is open to all **Scottish Hydro Electric** consumers, irrespective of which tariff you are currently on or your income.

If you would like to take up this offer, please complete the tear off slip at the bottom of this page and return it to: **Lochalsh & Skye Housing Association, Morrison House, Bayfield, Portree, Isle of Skye IV51 9EW**. We will then make arrangements for this to be forwarded to Scottish Hydro Electric who will consider your request and contact you directly.

✂-----

I would like to apply for a **Current Cost Monitor** and **Better Plan**.
